

# FinOps Services: Optimising Your Cloud Investment

FinOps blends finance, technology, and business practices to manage cloud costs efficiently. Our approach follows the proven Inform-Optimise-Operate lifecycle, enabling real-time decisions and cross-functional collaboration.

## Cloud Cost Assessment & Visibility

Comprehensive analysis of current cloud spending with detailed insights into resource utilisation and cost allocation.

## Optimisation Strategy & Implementation

Tailored recommendations for rightsizing, reservations, and automation to maximize value while minimising waste.

## Governance & Accountability Framework

Establish clear policies, tagging strategies, and responsibility models to maintain cost discipline across teams.

## Continuous Monitoring & Reporting

Ongoing tracking of KPIs and anomalies with customised dashboards for stakeholders at all organisational levels.

# Engagement Duration & Phases
